SEDONA TECHNOLOGIES
a Sedona Group Company

The technology, tools and services to grow your business.

www.sedonatek.com

You've heard about how Performa™ and Workflow™ have revolutionized the sales process for John Deere dealerships.

Now you can take advantage of another great product that will save you time and money. With Sedona CROPS remotely managing your desktops, laptops, and other dealer–based systems, you can reduce the risk of productivity loss through a proactive approach to infrastructure management.

Sedona CROPS™ Desktop

For $6/month per desktop.

- Proactive Monitoring including Critical and Non–critical Alerts
- Hardware and Software Inventory
- JDIS Approved Patches and Updates
- Customer Management Portal
- Access to JDIS Helpdesk and much more!

Sedona CROPS™ Server

For as little as $15/month per server. Includes everything with desktop plus:

- Proactive and Real–time Monitoring including Critical and Non–critical Alerts
- Basic Network Device Monitoring
- Application Monitoring including Exchange, SQL, and Active Directory

SEDONA TECHNOLOGIES

We know what Dealers need.

We're tech geeks, we can't help it, and sometimes we talk over people's heads but when it comes to our John Deere Dealer customers we talk the same talk, and walk the same walk. From our partnership and listening to Dealers like you, we have developed products that will increase productivity and in the end move equipment. Your input and suggestions has helped us design the tools and products you need to use in order to improve the back–end operations of your dealership.

Sales Workflow™, streamline and simplify.

A time and money saving software tool for processing sales documents that's invaluable to Dealers and can change the way you do business.

- Save time by auto populating data from JDQuote2 in to Sales Workflow forms
- Reduces costs by not missing out on incentives and bonuses, by not paying extra interest when missing pay offs on trade and settling sooner
- Increase communication and efficiency by electronic sharing of deal information

PerForma™, efficient document storage.

A document management tool with Legacy & EQUIP Business System interfaces for easy, organized, archive storage of all electronic documents.

PerForma Scan™, document management tools for a paperless environment.

A document imaging product,that transforms your daily office paperwork into electronic documents that are easy to store and retrieve. This software tool controls the volume of documents that would otherwise overflow from filing cabinets and storage.

PerForma™ A/R Invoice Report, billing gets faster and more efficient.

Gathering and combining your statements and supporting invoices that once took days, now takes minutes because you can retrieve statements and supporting invoices in mail ready format which in turn shortens the time it takes to send your customer statements.

Dealer Intranet using Microsoft SharePoint Services, improved productivity and collaboration.

Users are connected to the information and resources they need. Create workspaces, coordinate calendars, organize documents, and receive important notifications and update through announcements, alerts, email, blogs and wikis.
